Resume

As a middle software developer with 3 years in the web development field, my current career goal is to collaborate in building complex web applications. With a solid technical background, a keen eye for the detail and a self-motivated and a user-centered attitude, I switch easily from Front-End development to Back-End architecture.

Technical Skills

Bar chart values:
- JavaScript / React / Redux / Jquery — 10
- Node.js / Express.js / MongoDB — 5
- GraphQL / AJAX / REST / JSON / Web Socket — 8,3
- HTML5 / CSS3 / Sass — 9,7
- Enzyme, Jest — 6
- GitHub / GitLab / Bitbucket — 8
- Photoshop / Illustrator / Sketch — 9,7
- Angular / Vue / React Native — 3

Soft Skills

- **Fast learner**, keen on new technologies.
- **Team worker** who believes in collaboration to achieve higher goals.
- **Dynamic** and **proactive**, with a "getting things done" mindset.
- **Perfectionist** and **passionate** about my job and committed to do always my best.
- **Customer focused**, I understand both business and user needs.
